## Colorado Communities with Local Dial-up Internet Access

The following list contains the names of 226 Colorado communities with local dial-up Internet service—communities from which a local ("free") telephone call may be made to an Internet Service Provider (ISP). Names in **bold** are the “points of presence” (POPs) of the ISPs; other names are communities within the local calling area of at least one POP. There may be other communities with local dial-up Internet service. (This list is based on data from 11/96.)
